EDUCATION

Eötvös Loránd University | **Budapest, Hungary**

B.S. in Computer Science (**2nd year**) | **GPA:** 3.8/5.0   **September 2023 – Currently**

Relevant Coursework: Web Development, Object Oriented Programming, Algorithms & Data Structures, Programming Languages.

ADA High School | **Baku, Azerbaijan**

GPA: 3.19/4.0   **June 2022**

TECHNICAL SKILLS

Programming Languages: Java, C#, JavaScript
Web Development: HTML, CSS, JS
Tools: Git, Mockflow
Currently learning: React.js, Python, SQL

UNIVERSITY ASSIGNED PROJECTS

"Famous Philosophical Movements" Website | **Web Development class Project**   **March 2024**
- Using **HTML**, **CSS**, and **JavaScript**, scripted and designed a website on the topic of Philosophy considered valid by the HTML5 document type and CSS rules. The usage of JavaScript offers user accessibility through alternative style sheets.
- Made a wireframe using **MockFlow** and a separate file of website content.

Ecosystem of Plants | **Object Oriented Programming class Assignment**   **May 2024**
- Simulated an ecosystem of plants affected by different radiation levels using **C#**.
- Applied the principles of OOP and used the **singleton design pattern** and an **interface** for implementation, along with a documentation file that includes a detailed **UML diagram**.
- The program reads the data of the simulation from a text file.

PERSONAL PROJECTS

Digital Portfolio Website   **September 2024**
- Website to store all my complete and ongoing projects along with other interests written from scratch using **HTML**, **CSS**, and **JavaScript**.
- It is hosted through Github ([Digital Portfolio](#)) and is currently a work in progress, with updates to performance and design weekly.

Web Dress-up Game   **October 2024**
- A web-hosted game written from scratch using **HTML**, **CSS**, and **JavaScript**. I drew all the assets using Procreate. The JavaScript and CSS together allow the clothes to be layered and their visibility to be toggled on top of a base body, resulting in a cute and simple game to play online.
- It is hosted through Github ([Dressup Game](#)) and is currently an ongoing project as I intend to add more clothing designs and "game" functionality.

OTHER SKILLS & LANGUAGE PROFICIENCY

- Office 365 (Microsoft Word, PowerPoint).
- Photoshop, Canva, Procreate.
- Good at contributing to teamwork as well as being a Leader.
- Experienced and skilled in academic writing, public speaking, critical thinking, and problem-solving.
- **Russian** – Native or Bilingual Proficiency (C2)
- **English** – Native or Bilingual Proficiency (C1)
- **Azerbaijani** – Full Professional Proficiency (B2)

CERTIFICATIONS

- IELTS – by the British Council, 8.0 (C1), April 2023
